Lisa Heenan
Chief Academic Officer

Lori Hynes
Director of Student Services

June 2022

Dear Harrison Township School Community Members:

In November 2021, the Harrison Township School District conducted the state mandated lead testing of water from all potable water outlets in our two schools. The testing was completed by South Jersey Water Test, LLC of Williamstown, NJ and results were verified in December 2021. Although this testing is required, we do not delay in testing and corrective actions as the safety of our students, staff and community is our highest priority. The tested outlets included water fountains and sinks throughout the district.

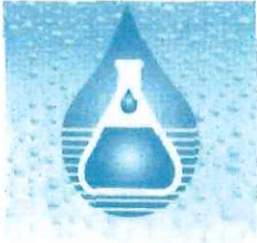

The November 2021 results reflected that NO SAMPLES AT PVS exceeded the DEP action level. At HTS, three CLASSROOM SINKS did exceed the DEP action level. These sinks at HTS are classroom sinks and therefore NOT used for consumption. The state protocol with any outlet that tests lead at or above 15 PPB (parts per billion) is to proceed with a flush sample, which was completed in February 2022. As a note and according to our professional consultants in this area, a part per billion or PPB can be equated to a drop in an Olympic size swimming pool.

The flush sample result did indicate three instructional area sinks in HTS exceeded the DEP action level. As a response, we immediately replaced parts in the plumbing in those areas believed to have been responsible for these readings. The water sources were immediately retested after this remediation and ALL SAMPLES returned within the normal range. The most recent results of this extensive testing are posted to our school district website for review. If you have any questions about the testing process or previous results, please contact the Superintendent's Office at (856) 478-2016 X 7123.

Our district continues to respond in a proactive and conservative manner regarding the required lead testing, with work and focus beyond the requirements of the mandate, to ensure the utmost safety of our students, staff and community members. As always, please do not hesitate to contact me with any specific questions or concerns.

Sincerely,

Dr. Margaret Quinn Peretti, Superintendent of Schools
